**Calling all young food fanatics, budding scientists and curious kids!
We will guide students through culinary based experiments
exploring science through food.**

Spark or nurture your passion for science in this four-week series. From edible science experiments to creating art with food, students will delve into the fascinating worlds of chemistry, physics, biology and engineering through fun, interactive, and sometimes, *magical*, hands-on activities. Each week will feature exciting experiments and the creation of a delicious snack.

**The Classic Thyme
Edible and Living Garden Schoolyard
Farm-to-Table Summer Camp Program,
Now including
kitchen science and arts & crafts.
with Sue Constantine & Charlotte Lee**

Classic Thyme Cooking School continues the summer camp series that will teach kids about gardening and what “farm to table” really means. When kids participate in any aspect of gardening and cooking it changes their approach to food and causes them to think about food differently. For years we have worked with kids, of all ages, teaching them basic culinary skills and introducing them to new foods through hands-on participation in culinary preparation and education. Now we are taking it to the grass-roots level by introducing this new program.

Campers will learn while participating in the planting, growing, weeding, watering, and harvesting, of a living schoolyard garden. Each day will consist of activities including hands on work in the garden, indoor classroom activities, science, preparation of all natural healthy foods and treats, as well as some good old fashion getting dirty with our hands in the dirt fun.

Each week is independent and the curriculum will change based on seasonally available vegetables and herbs. Recipes will be supplemented by purchased ingredients as necessary.

Camps run 4 days per week, Monday through Thursday, except the week of July 4th which is a 3 day camp. All camps are 4 hours per day, which includes time for eating whatever we prepare from the day’s harvest.

****Extended 4 hour Class Times****

Summer Camp 2018

Classic Thyme Summer Culinary Cooking Camps offer week long 4day sessions, for age groups starting at 4 years old. Our program introduces students to the culinary world giving them the opportunity to develop basic skills that will build the foundation to cook and create culinary treasures with proficiency throughout their entire life. On the first day of each class we get right down to the business of cooking. We always try to work in some of the foods they claim they don't like as this helps to broaden their horizons and make them more willing to be adventurous. I still remember a student claiming they would never eat snails. To this day conch fritters is one of the most popular dishes older campers request.

Perhaps after a week with us your aspiring chef will be preparing and eating foods you never imagined they would try. Unlocking and opening the door to develop good kitchen skills, sound nutrition and inspiring the gourmand in students is an important step for providing a better path for life.
